

## Junior Docent Ancient Review for December 16, 2015

We have divided our course of study so far into nine areas (see below). The Ancient Review on December 16 will consist of key ideas and Mia objects to present to the rest of the class.

**On Dec 9:** As a group, compare notes and choose 3 or 4 key ideas for your culture/period. Then, choose 3 or 4 key works in our collection that best represent your key ideas. If you have been assigned more than one culture/period to present (e.g. Japanese and Chinese ceramics), choose up to 2 key points for each culture/period. **By the end of class, give Kara your list of Mia objects** (including accession numbers) and she will put them into a PowerPoint for December 16.

**On Dec 16:** You will have 15-20 minutes to finalize your presentation and then each group will have approximately 10 minutes to present their portion, so be succinct and focus on issues that are pertinent to giving tours. Appoint one person from the group who will type up your key ideas and send them to Kara afterwards in a timely fashion. She will compile a review document for everyone.
