

HIEROGLYPHS FOR IRY-N-AKHET

Below are the exact symbols representing Iry's name.

**KERHEB**  
(Lector-Priest)

**AKH - ET - N - IRI**  
(Name)

This combination reads left to right, literally "akhet - n - iry." It can also be read right to left, depending on which way the symbols face. It can even, as seen in the upper register, be read vertically.

The eye symbol stands for R, phonetic ari.

The water symbol stands for N.

The other symbols combined stand for the sound akhet (3HT).

Iry-En-Akhet's Offerings:

1000 alabaster jars

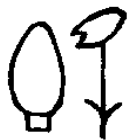

1000 jugs of beer

1000 loaves of bread

1000 cattle

1000 geese

Do a visual analysis. How is line used? Shape? How is this piece balanced? How is the balance achieved?
