

Water is Life

World of Water 2022

Mia

Water is Life

A Collaboration with the Science Museum of Minnesota
and the Minnesota Landscape Arboretum

WATER IS LIFE

- **Plants, animals, and people need clean water to live.**
- **Water has special properties. It changes forms.**
- **People around the world create ways to interact with water in their lives.**

A series of 3 programs presented by Mia, MLA & SMM engages students in powerful, real-world learning experiences that stimulate scientific discovery, critical thinking, and language development, supporting academic standards in science, social studies, English/language arts, and visual arts. During each program, students will practice making observations and using evidence to describe and support their ideas.

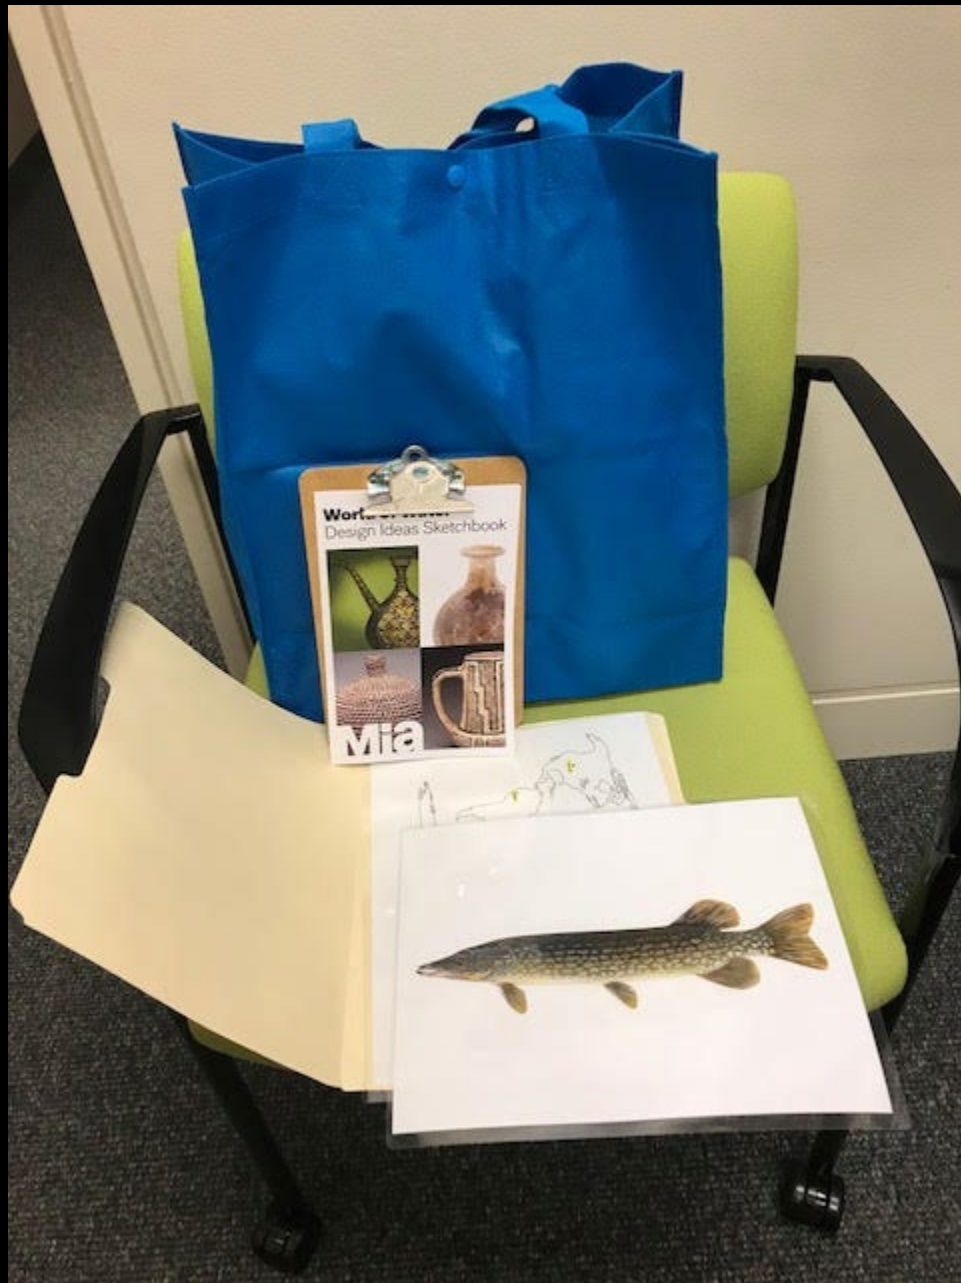

Mia's "World of Water" experience comprises 3 sections to teach how people around the world depend on water and make art to store, carry, drink, use, and celebrate water.

	Group 1	Group 2	Group 3
10:15-10:50	Studio 112	Design-2 nd floor West	Tour- 3 rd floor and 2 nd floor East and West
10:55-11:30	Tour- 3 rd floor and 2 nd floor East	Studio 111	Design-2 nd floor West
11:35-12:10	Design-2 nd floor West	Tour- 3 rd floor and 2 nd floor East	Studio 112
